TIMBER
SERIES
Wood-like ACPs

As responsible citizens we choose to design products that help prevent the depletion of natural resources.

Aludecor's Timber Series easily replaces wood.

These ACPs provide a planet-friendly choice.

You can now enjoy outstanding exteriors and interiors while preserving Nature's reserves.

With such innovations in place we hope to gift our children better and greener tomorrows.

Superior wood-like interiors and exteriors are now possible with Aludecor's Timber Series. Take your pick from a range of realistic looks and give your designs that extra edge.

Better than wood!

Fully recyclable

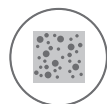

No borer, fungi and termite

Facilitates LEED certification

No swelling or shrinkage

Rich feel

Lightweight and easy-to-install

Fire-retardant

Zero fumes

These ACPs are super flexible and can bend, fold and turn easily. Straight and angular routing assists in bending the panels to cover angles, clad columns, create linear 'caps' or trays. Besides press brake or pyramid rollers can be used to bend the composite panel into a more desired shape.

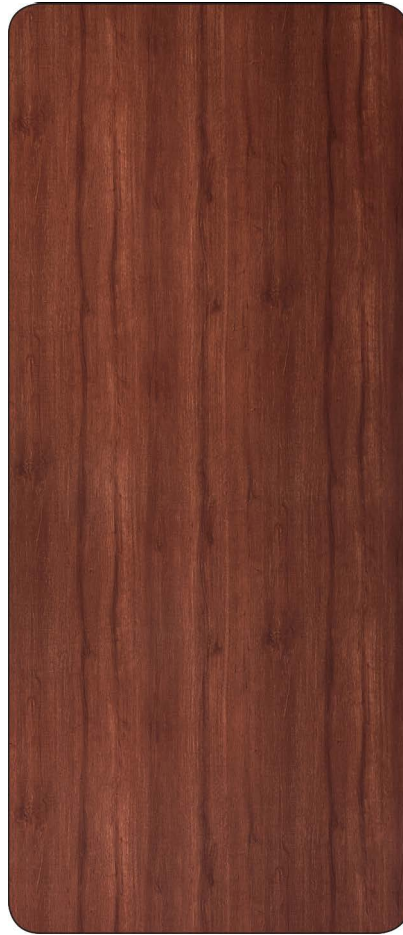

The printed colours are only representative and may vary from the original sample shade. The colour of the final product will be as per actual sample. Shades may vary from batch to batch.

Heartwood

COMPOSITE DE ALUMINIO, ZINC Y COBRE, LAS FACHADAS DEL PRESENTE.

Aludecor Spain es una empresa especializada en la fabricación y distribución de paneles de Composite de Aluminio, Zinc y Cobre principalmente para el sector de la construcción. Desde 2004 son muchos los profesionales como arquitectos, promotores y constructores de todo el mundo los que han optado por nuestros productos gracias a la calidad, garantía e innovación del que presume el composite de Aludecor.

Un verdadero creador de tendencias

Aludecor incursionó en el ámbito de la construcción y el diseño para transformar las construcciones del mañana. Creador de tendencias en ACP y bobinas revestidas, que embellecen los interiores y exteriores de los edificios, contribuyendo a crear estructuras contemporáneas que llaman la atención fácilmente.

A través de constantes innovaciones tecnológicas e investigación, Aludecor ha establecido nuevos estándares de excelencia y ha introducido un nuevo cociente estético.
